

Use-Case Flow Specification

UC-01: Submit Event Proposal

Name: Aarush Muralidhara

SRN: PES1UG24CS010

Primary Actor	Club Lead
Supporting Actors	Faculty Coordinator, Finance Office, Dean, Campus Admin
Goal	Submit an event proposal and requested university budget so that it enters the defined approval workflow.

Preconditions

1. Club Lead is authenticated.
2. The club is registered in the portal.
3. The event details and requested budget are available.

Postconditions

4. A unique proposal ID is created.
5. The proposal is stored with status “Pending Faculty Coordinator Approval”.
6. The proposal is available to the Faculty Coordinator for review.

Main Success Scenario

7. Club Lead selects “Create Event Proposal”.
8. System displays the event proposal form.
9. Club Lead enters event details, requested budget, and required supporting information.
10. System validates that all mandatory fields are present and the budget value is valid.
11. System creates a unique proposal ID and records the submission time.
12. System stores the proposal and sets its status to “Pending Faculty Coordinator Approval”.
13. System notifies the Faculty Coordinator that a proposal is awaiting review.
14. Use case ends successfully with the submitted proposal visible in the Club Lead’s portal.

Alternate Flow — Incomplete/Invalid Submission

15. 4a. One or more mandatory fields are missing or the budget value is invalid.
16. 4a1. System identifies the invalid or missing fields and displays an error message.
17. 4a2. Club Lead corrects the information.
18. 4a3. System re-validates the submission.
19. 4a4. If validation succeeds, continue at Step 5.
20. 4a5. If validation continues to fail, the proposal is not submitted and no approval workflow is started.
